# ABOVE AND BEYOND

Take the ultimate vacation by renting an entire island, town or castle

Once you have stayed in the finest, grandest hotels, at the plushiest of resorts, and visited the chicest locations, what do you do next? You go beyond. Beyond what for you has become everyday and perhaps even boring, to the next level to seek a getaway experience that provides extreme exclusivity, decadence and indulgence with total privacy and customisation.

Like the famous and the powerful, as a discerning seasoned traveller you seek an ultimate luxury vacation by renting an entire tropical island, an intimate ski resort or a stately castle – all award-winning, of course.

Private Islands Online, a travel website that specialises in islands for rent – and purchase – has a portfolio of exclusive offerings that all come with stunning accommodation and the option for a full-service experience that includes a team of staff on hand to take care of every whim and desire. According to Chris Krolow, CEO of parent company Private Island, anyone who has spent time on a private island will attest there is something unquestionably magic about it. Two hot picks are Calivigny Island in the Caribbean and the Fijian island of Namale.
